Skills

JavaScript (ReactJs/Redux, Polymer, AngularJS, jQuery, Node.Js/express), HTML, CSSS/SCSS, PHP, Java

Project Experience

Eazy-Dig https://github.com/illl48/Eazy-Dig
Technologies used**:** HTML5, JavaScript, React/Redux
- Developed an offline-first app which can display all related information of the record users search for.
- Used Discogs, ebay and Spotify API to fetch data.

Restaurant Reviews App https://github.com/illl48/restaurant_reviewer
Technologies used**:** HTML5, JavaScript, Polymer
- Created an accessible web application containing restaurant information and customer reviews.
- Used Google Place API to fetch data.

Public Transportation App https://github.com/illl48/publicTransportation
Technologies used**:** HTML5, JavaScript, React/Redux
- Built an application that allows users to select a departure and arrival at the train station, and see a list of trains, times, and durations
- A default train schedule will be provided that should be used when the application is offline. If a network connection exists, the application will query an endpoint that provides "real-time" status updates on trains and delay information from My511.org.

Google Map with Yelp API https://github.com/illl48/googleYelp
Technologies used**:** HTML5, JavaScript, AngularJS, Responsive web design
- Built a responsive webpage which allows users to search businesses nearby.
- Used Google Map API and Yelp API to fetch the data.

Covers in Yesterday http://edwardlai3582.com/#/yesterday
Technologies used**:** HTML, JavaScript, AngularJS, d3.js, Node.Js/express, mongodb
- Built a MEAN stack webpage which allows users to add information about covers showed in the Yesterday Youtube video.
- Used d3.js to display the covers' information.
